The new Billy Pugh. A breakthrough in design.

Billy Pugh Company's 4 to 12 person transfer device is used to quickly and effectively transport personnel on and off of platforms and drilling rigs. All X-904's are made of a sturdy and very durable aluminum skeleton that encompasses the rider to protect them from falling objects and any side impact that may occur. All models are equipped with quick release safety lanyards to provide safety and give the rider confidence while in transit. The X-904 is built above and beyond standard safety rules and regulations to provide a superior product.

X-904 Offshore Transfer Device (Personnel Baskets)

MODEL	DESCRIPTION	WT	DIMS
X-904-4	4 PERSON TRANSFER DEVICE	655 LBS (297.1 kg)	90" X 90" X 34"
X-904-6	6 PERSON TRANSFER DEVICE	700 LBS (317.5 kg)	102" X 102" X 36"
X-904-8	8 PERSON TRANSFER DEVICE	900 LBS (408.2 kg)	102" X 102" X 36"
X-904-10	10 PERSON TRANSFER DEVICE	1000 LBS (453.6 kg)	112" X 112" X 36"
X-904-12	12 PERSON TRANSFER DEVICE	1200 LBS (544.3 kg)	120" X 120" X 54"

* ABS & ABS Certification Report are available upon request.

5 REASONS TO USE THE X-904

1. First and foremost, you want to exit quickly. If you are sitting down there are many things that can go wrong. By standing up with your knees bent you will be able to make a quick exit by taking one step back. Other companies impeded on your ability for a quick egress.
2. Other companies want you to sit down and face outward. By facing outward with your eyes on the ocean you lose your equilibrium and your sea legs. The X-904 allows you to face inside and keep your focus on the center pole, which is a fixed object so you are less likely to get sick.
3. Other companies require you to sit down and buckle in. BPC offers a quick release safety lanyard that attaches to your life vest. By using the same technology race car drivers use, you have the ability to unlatch and get out quickly. Because the last thing you want during an offshore transfer it to be buckled in.
4. If you are sitting down you are dependent on a soft landing. There are too many uncontrolled factors like high winds, rough seas, human error, etc. We all know conditions are not always perfect but transfers still need to happen. The X-904 offers you the safest possible transfer.
5. When you are standing up in a circle, you can see how other, more experienced riders are able to use the X-904 in a safe secure manner.

Storage Cover for Assembled Transfer Device

MODEL	DESCRIPTION	WT	DIMS
904P-31	4 PERSON TRANSFER DEVICE	22 LBS (9.9 kg)	20" X 20" X 24"

Strong yet Lightweight.

Safety without Confinement.

Quick and Effective.

“The Original” Billy Pugh. set the standard.

The Billy Pugh personnel net has become the industry standard all over the world. It has safely transferred millions of riders over the years and is a symbol of the offshore industry. Many offshore employees remember his or her first ride on a Billy Pugh transfer net. It is almost a rite of passage. There have been many attempts to improve or even replace the personnel net but the basic idea and design is still in use around the world.

800 Series Offshore Personnel Transfer Nets

MODEL	DESCRIPTION	WT	DIMS

The OSHA Man Basket.

lifting you in the air.

Billy Pugh Company's OSHA Man Basket (OMB) is a crane suspended basket used to lift workers into the air. Our baskets provide sufficient room for workers and tools, a safety hand rail, and an access gate that opens inwardly. The OSHA man baskets are built to OSHA standards and are heavy duty steel. These man baskets are used for a variety of applications both on and offshore when a heavy OSHA spec man rider is necessary. Baskets are available in 2 or 4 person models. Test weights for each are also available.

OSHA Man Baskets

MODEL	DESCRIPTION	WT	DIMS
OMB-2	2 PERSON BASKET 4' X 4' X 7'	550 LBS (249.5 kg)	48"L X 48"W X 84"H
OMB-4	4 PERSON BASKET 4' X 6' X 7'	750 LBS (340.2 kg)	48"L X 66"W X 84"H
OMB-S	SLING	58 LBS (26.3 kg)	48"L X 40"W X 11"H
OMB-TW2	TEST WEIGHT FOR OMB-2	1250 LBS (567.0 kg)	48"L X 48"W X 72"H

Baskets to fit every need.

Built Tough for Tough Jobs

Professionally engineered to exceed OSHA standards for all your cargo.

Right Basket for the Right job.

BPC offers a variety of baskets for the specific job that needs to be done. From personnel work baskets to cargo baskets, you can find the right basket for the job.

Safe. Dependable.

The BPC baskets are manufactured with safety in mind.

Excellent Protection.

fiberglass products offer excellent protection for your safety equipment.

Extreme Temperatures and Weather?

They are made with high quality, corrosion-resistant material that will hold up in all kinds of weather, chemicals, dust, insects, salt water, UV-rays, and extreme temperatures year round.

Emergency Storage.

BPC's fiberglass products are designed to protect equipment such as fire-hoses, fire extinguishers, breathing apparatuses, life jackets, ring buoys, or to satisfy your general storage needs.

High Quality Features.

They are manufactured with stainless steel hinges, quick-opening rubber T-latches or stainless latches. Special features include windows and stenciling. Custom orders upon request.
