LIFEJACKET

A 275N manually inflatable lifejacket, designed for offshore usage.

Specifically chosen by Reflex Marine to ensure that it doesn't interfere with the safety features of the carriers.

Part Number: LIFE-007

HARD HAT

A rope access helmet chosen specifically so that it provides suitable protection to the user, whilst not interfering with the seats.

Features a chin strap and is fully adjustable.

Part Number: HHAT-001

Weatherproof woven polyester fabric, coated in PVC to provide tear resistance, flame resistance (BS 3408) and reflective UV protection

A silver reflective protective cover which is made of flame resistant fabric (BS7837) and protects against degradation from UV light and the weather.

All covers have the following features:

- » Simple snap buckle fasteners for door ways
- » Tie down straps
- » Cut-outs for the lifting points

FROG-3, FROG-6

This cover is specifically designed to fit the FROG-3 and includes extendable sections, so that the cover can be used even when the unit is in stretcher mode.

Part Number:

FROG-3: 300-06

FROG-6: 600-06

FROG-9

Protective cover designed to fit the FROG-9. This cover only has one configuration.

Part Number: HC9-MM-05

TORO-4

Protective cover designed to fit the TORO-4. This cover only has one configuration.

Part Number: RT-51

FROG-XT4 and FROG-XT6

This cover is specifically designed to fit the FROG-XT4/XT6 and includes extendable sections, so that the cover can be used even when the unit is in stretcher mode.

Part Number: RP0136

FROG-XT10

Protective cover designed to fit the FROG-XT10. This cover only has one configuration.

Part Number: RP0283

NAVI LIGHT 360

LED strobe light, with a magnetic connection and 360 degree visibility.

Provides greater visibility at night and in poor weather conditions. High-intensity, light weight, waterproof to 300 m and has a flash rate of 50 per min. Provides 6 mile visibility. C cell battery powered, fitted to the overhead protection plate in the FROG-XT.

Part Number: RA0170 (FROG-XT range only)

JOTRON TROBE LIGHT

High-intensity, light weight strobe light waterproof up to 300m, with a flash Rate 50 per min and also provides 6 mile visibility.

Part Number: 300-02-01

ZONED STROBE LIGHT

A zoned strobe light suitable for use in zoned areas.

Part Number: 300-03-01

FERNO BASKET STRETCHER

Chemical and corrosion resistant heavy duty basket stretcher. High density polyethelene shell with integral tubular aluminium frame

Essential for conducting emergency medical transfers. This stretcher is compatible with all Reflex Marine products.

Part Number: 300-01-01

Stretcher Restraint Straps

A set of replacement stretcher securing straps.

FROG-XT Part Number: RP0141

FROG-3 Part Number: 320-03-18

FROG-6 Part Number: 600-01

TORO Part Number: RT-61

Passenger Restraint Straps

Replacement passenger restraint straps for the Ferno stratecher

Part Number: 300-01-02

Stretcher Cover

Ferno stretcher protective cover.

Part Number: STRE001

Stretcher Cabinet

Ferno stretcher storage cabinet.

Part Number: STRE002

XT Range Large Luggage Box

A stainless steel, floor mounted solution for larger items of luggage that will not fit into the light luggage holder. It is attached to the floor grating underneath the passenger seat.

Part Number: RA0316

XT Range Light Luggage

This is a small holder that attaches to the underneath of 2 seats, allowing for small, hand-held items such as laptop bags to be loaded and transported by the FROG-XT4.

Part Number: RA0292

FROG-3 Luggage Box Assembly

The fitted rigid luggage box offers 60 litres capacity for loose items such as hand tools and equipment cases. Moulded box fits into the buoyancy recess and is easily fitted.

Part Number: 300-04

SKID TROLLEY

Galvanised steel skid trolley, with nylon wheels with integral brakes. The skid trolley allows you to easily move your unit around the deck, without the need for another equipment. The FROG only need to be lowered onto the skit trolley.

Part Number:

FROG-3: 300-05

FROG-6: 600-05

STRETCHER FRAME TOOL KIT (FROG-3)

A small tool kit that contains all the tools required to be able to convert the FROG-3 into stretcher mode. Comes in its own small tool box.

Part Number: F-ASY-19

TOOL KITS – ALL PRODUCTS

A complete set of tools, required to inspect and maintain your unit

Part Number: On Application

KEEL NUT REMOVAL TOOL

A tool specifically designed for the easy removal of the keel nut in the FROG-3 and FROG-6.

Part Number: On Application

INSPECTION STANDS

Stainless steel frame with wooden tops that allows you to raise up the unit, so that you can inspect the underside of the unit with ease.

Part Number: SUST001

FROG-XT10 SPREADER BEAM KIT

A spreader beam specifically selected for load testing the FROG-XT10. Includes all straps and shackles required to attach the spreader beam to the FROG-XT10.

Part Number: RA0328
