Brand: Chalmit Lighting

Discontinued. Suggested Alternatives: **NEVIS** and **SCO** The 216 well-glass luminaire is ideal for use where a compact, robust and efficient source of localised lighting is needed. Designed for use in Zone 1 and 21 hazardous areas, the range accommodates high pressure sodium lamps up to 70W. The 216 is made from corrosion resistant aluminium alloy and toughened boro-silicate glass using stainless steel fastenings and has an IP66/67 rating. The luminaire features a large side mounted increased safety terminal chamber eliminating the need for flame-proof cable glands and allowing flush mounting.

- Installation to gas groups IIA and IIB
- Highly resistant to mechanical damage and corrosion.
- Stainless steel fasteners.
- Compact and efficient.
- Ex e terminal chamber.
- Anchor chain on glass cover assembly.

FEEDBACK

- Suitable for use down to -50°C ambient.
- ATEX Certified and EAC Approved.

Click the 'Contact Us' link above to get in touch with us and discuss how the 216 well-glass luminaire could work for you.
