

Metal Horn Speakers

The DNH aluminium horn series represents an extremely robust range of heavy duty horn speakers.

These speakers are renowned for both high reliability and superb efficiency, that makes them suitable for all industrial environments and public areas such as railway-stations, dockyards and manufacturing works.

HS-15S and H-62S are designed to withstand external sound shocks.

The vandal-proof Safe-15 has been designed with a separate weatherproof internal compartment.

Model	HS-8	HS-15	H-66
Material/Colour	Alu/RAL 7031	Alu/RAL 7031	Alu/RAL 7031
